

Jim & Marsha Kiester, Kimmell, IN. (10-13-17)

Words are not enough to express our thanks and gratitude to Calvin Bolt and his excellent services.

We first met Calvin eleven years ago at a home our daughter wanted to purchase. Her father-in-law recommended Calvin Bolt for a home inspection before buying, to make sure it was currently up to code. He walked us through this house, explaining everything thoroughly. His patience with all our questions was appreciated. We were very impressed with Calvin. He is highly professional and more importantly, a trustworthy person.

Eleven years later, our water had a terrible odor in it. Remembering Calvin Bolt's fantastic service for our daughter, we contacted him. He took water samples to be tested. Chlorination and de-chlorination of our well and water system was needed to get rid of bacteria. It was quite an involved process. We were fortunate to have hired Calvin to carry out this difficult work and have his strong work ethic.

Our water is odor free now, thanks to Calvin. We highly recommend his services to anyone that is buying or selling a home, or if their water needs testing.

Thanks Calvin, we are beyond grateful for you.
