Thanks for your help in getting our issues resolved with our first inspector. Your thorough inspection report helped us settle quickly with our first inspector's insurance company. The documents and photos you provided were indisputable! We wish we would have used you for the initial inspection, but if we move again, we know who to call. We would highly recommend you to anyone getting their home inspected, initially or during a dispute. In addition, some of the items you found affected the health of our family. You are the best!

Thanks again.
